

What is 111Project?

111Project is a Christian 501c3 based in Oklahoma that mobilizes local churches and communities to support vulnerable children and families. Working in all 77 counties of Oklahoma, 111Project bridges the gap between government, non-profits, foster care agencies, businesses and churches to see that every child has family, every family has support, and every church does their part.

What is CarePortal?

CarePortal is 111Project's primary tool for church and community mobilization. CarePortal is a care-sharing technology that manages current, vetted, local needs for the church and community, providing opportunities for connection between those who want to help with those who need it most. It is a free tool for churches.

How can your church and its members can be involved?

As a church, your members can respond to requests on CarePortal, build meaningful relationships, and alleviate burdens in your community. Your first steps include enrolling on CarePortal, designating a Church Point Leader, and creating a Church Response Team. 111Project will help you with each step and get your church on the path to begin meeting needs in your community.

What is a Church Point Leader?

The point leader is the primary link to the 111Project network. They recruit and support other church volunteers who want to help meet community needs, advocate for kids, and raise awareness about foster care/adoption. They share information about events, ways to advocate for kids, foster care, and local needs within their church. They monitor current CarePortal requests and help their church manage and respond to submitted requests.

What is a Church Response Team?

Your church response team is a group of volunteers who have committed to receiving emails from CarePortal and responding to needs based on their availability, access to resources, and time.

CarePortal can be utilized by churches in 3 different ways:

- **Meet community needs:** Agencies post needs, and churches respond directly.
- **Use community resources:** Churches can claim donated items or funds to meet needs.
- **Advocate for church-connected families:** Submit and manage tangible needs discovered within your congregation
